For battery pack storage longer than 30 days: Store the battery pack where the temperature is below 80°F and away from moisture. cB120n Store battery packs in a 30%-50% charged condition. Fig. 1 Every six months of storage, charge the pack as normal. Page 3: Règles De Sécurité Générales

Power DEWALT® 12V tools (not including Univolt tools) with this battery that delivers impressive runtime and performance.

I have some cordless power tools which all require a certain 12V nickel-cadmium battery pack. My battery packs are dead, but the good news is they're held together with screws, so I took them apart to have a look. The bad news is the cells inside are all shot; they have the little crystals on the outside telling me they're done.
