The BigBlue SolarPowa 28 is our top choice for a portable solar charger because it balances portability and solar charging efficiency the best of any solar panel we tested. This model has impressive solar charging abilities in both direct sunlight and during cloudy days. And it weighs less than all but the smallest 5-watt panels.

Charging Speed. When it comes to charging speed, it made the most sense to closely compare the X-Dragon to the Voltaic panel, as both were tested as laptop-compatible panels using large external batteries. We tested the X-Dragon 40W with the Aceyoon battery pack and found that it took most of the day to charge this 50,000mAh battery. Similarly, the Voltaic 20W took all day ...
