Thanks to the transfer switch technology, your backup generator can start supplying power to your home seconds after an outage begins. Generator restores power Whether you're home or not, your Generac home standby system kicks into action, and continues to power your home until utility power returns.

Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.
