The installer should be familiar with the installation requirements and techniques to be used in securing the battery cabinet to a relay rack or wall. 2.3 Mounting the Battery Cabinet

It's a good idea to have operating procedures for the cabinet already in place, so staff can be trained to use it correctly. Installation . Using a trolley or stair lifter, retrieve the battery cabinet from the delivery area (leaving the packaging on.) Take the cabinet to the installation location.

If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module. Cabinets can be permanently bolted to the floor or left standing on leveling feet. Power and control wiring can be routed through the top or bottom of ...
