53-01118-200 Rev B 06/09/2020 Page 1 INSTALLATION GUIDE Battery Guard™; 1000 (12v) Part number: 00-01118-000 The Battery Guard™; 1000 was designed to make installation simple.

The plate guard has been designed to fit onto most dinner plates to make it easier to get food onto your cutlery. As the food is pushed towards the guard it has nowhere to go but onto your fork or spoon. It fits onto plates with a diameter of between 9-10" and has three hooks that attach it securely to the edge of the plate. Height is 1-1/3".

Samlex Battery Guard BG-200. The universal programmable Battery Guard (BG) prevents the excessive discharge of the battery (which would damage the battery) and protects electronic appliances against overvoltage. The BG-60 battery guard has an "Automatic Board System Detection"; the BG automatically detects the battery voltage (12 or 24V).

An example of a pasted plate grid (U.S. Department of Energy BY U.S. Government Work) The negative and positive lead battery plates conduct the energy during charging and discharging. This pasted plate design is the generally accepted benchmark for lead battery plates. Overall battery capacity is increased by adding additional pairs of plates.
