A solar carport, professionally designed and installed, can provide you with a large outdoor covered area to shelter commercial or domestic car parking spaces. Our great value for money cantilever style solar carport can take regular solar PV panels and can be accessorised to provide everything for vehicle charging points, with battery storage, fed directly from the sun.

A solar carport is a smart and sustainable solution. It generates green energy and cars stay cool, dry and protected under the panels. The solar carport gives your parking facility a visibly sustainable appearance. Solar carports are certainly sustainable, as the solar panels generate energy on both sides (top and underside).

For solar carports, solar panels are mounted directly overhead i.e. above the car (and above you as well), so they must be incredibly safe and sturdy. ... Made emitting 400 times less CO2 than top 5 PV manufacturers; Solar Carport for 1 ...
