A home solar energy system costs about \$13,400 after the 30% federal tax credit and typically saves around \$1,500 annually. The installation cost of solar panels and electricity bill savings depend on local electricity rates, the solar company you choose, how much sunlight your roof gets, and the rebates and tax incentives available near you. ...

Home solar isn't cheap: If you pay for it upfront, you'll spend about \$30,000 on average before incentives. But the federal tax credit cuts this price by 30%, down to around \$21,000, as long as you have a big enough federal tax bill. Some states, towns, and utility companies even offer additional incentives and rebates.
