

How to install the battery panel on a universal saw

Install the Mounting Bracket: Locate the mounting bracket on the saw. It may already be attached to the saw, or you may need to install it. Use your screwdriver or Allen wrench to secure the bracket in place. Make sure it is firmly attached to the saw. Attach the Blade Guard: Take the blade guard assembly and position it on the mounting bracket ...

With the battery removed, start by setting the depth control lever at the top of the saw all the way down to the blade change setting. 2: Then push the handle down to expose the blade screw in the side of the blade guard. You should feel it lock into place. 3: Locate the blade wrench from the rear of the saw, which is the larger of the two. 4
