The Tolerance days before and Tolerance days after fields relate to maintenance plan lines in which the Suppress overlapping maintenance jobs check box is selected (refer to step 17). The "Tolerance" fields are used to extend the interval in days in which, if several maintenance plans overlap, the most comprehensive / largest job is created as a ...

Maintaining large-scale lithium battery energy storage system (BESS) installations takes a different skill set, although they're largely hands-off and don't require any weather-related upkeep. But that doesn't mean there isn't anything to monitor, since BESS projects actually generate an enormous amount of data.

BMW Ultimate Care coverage is only transferable to subsequent owners, or lessees for model year 2022 and newer vehicles sold or leased by an authorized BMW Center, BMW Ultimate Care coverage is not transferable for model years 2021 and older.
