Solar-powered outdoor lights are an easy and energy-efficient way to light up your home's patios, decks, gardens and walkways.

Unfortunately, solar lights will not charge from artificial light. How many lumens is good for an outdoor solar light? The number of lumens will depend on the type of light you're using, where you're using it, and the other lighting around it. For example, deck lighting would typically need fewer lumens than a driveway bollard.

Fairy lights: Think of the lights on a Christmas tree - they have small, dim LEDs, narrowly spaced along a wire, and are ideal for decorative lighting. String lights: The bigger, brighter cousin of fairy lights. Also on wire, but the bulbs of string lights are spaced out more widely than fairy lights, and are much brighter, for festival-style illumination.
