

# Solar waterproof floor drain installation diagram

Linear drains can work great with barrier-free, curbless showers. But just like the smaller center drains, linear drains come in two types. You want to make sure you get a drain that works with a sealed shower system. A linear drain that's compatible with a 3-piece clamping ring drain isn't going to cut it for a curbless shower.

One of the most effective and least invasive methods of waterproofing a basement is with a baseboard system, such as Basement Systems' DryTrak. With this system, weep holes are drilled into the floor/wall joint or, in the case of a block wall, into the walls themselves. Once this is done, a hollow vinyl baseboard is epoxied to the floor.

Install a shut-off valve for the solar system so that the cold water supply is not interrupted. Install a T& P Relief Valve. The drain line should be discharged to the outdoors no higher than 6' ...

How to Build Shower Floor 2 (Liner, Drain) Now that the curb and pre-slope layer of deck mud is complete you are ready to install the shower pan liner. Notice the liner in the diagram below goes up the walls and over the curb. The PVC shower pan liner is a flexible waterproofing membrane that can be purchased at Lowes or Home Depot.

matter. ... Once completed, the flange is encased in a concrete floor that slopes 1/4-inch per foot toward the drain opening. Once the concrete sets, a waterproof membrane is installed over the floor and the lower flange. ... Shower Drain ...

As expected, shower drains remove water from your shower or shower/bathtub combo. As the water flows down the drain, it forms a vacuum that might slow the flow of water. As such, shower drains are vented so water can flow freely. Hair and other debris from showers can clog up the drain and prevent water from flowing.

Affix the drain body to the sub-floor with 4 screws. For concrete installations, be sure to use screws and anchors approved for use with concrete. ... Install flooring up to the protective cap cover. DO NOT remove the protective cap ...
