

# Sulphurized lead-acid battery pulse repair

The product has the function of pulse repair. For the lead acid battery that can not be charged due to mild vulcanization, the battery can be used to repair and activate in the pulse repair mode, which can reduce the vulcanation phenomenon to a certain extent and can make the battery charge normally.

Buy 20-Amp Smart Battery Charger,12V/20A and 24V/10A.Lithium,Lifepo4,Lead-Acid(AGM/Gel/SLA..) Car Battery Charger,Trickle Charger, Maintainer/Pulse Repair Charger,for ...

Discharging a lead-acid battery. Discharging refers to when a battery is in use, giving power to some device (though a battery will also discharge naturally even if it's not used, known as self-discharge).. The sulphuric ...

Yes, Epsom salt can be used to repair a lead-acid battery. To do this, you need to dissolve 120 grams of Epsom salt in 1 liter of distilled water to create a 1molar solution. After preparing the solution, fill each battery cell with it and cover the cap. Then, recharge the battery and test it to see if it is working properly.
