While the BioLite Solar 5+ is better described as one of the best solar power banks, I'm including it here because it provides many of the same benefits of a solar charger. I like this unit in particular for its excellent sundial and kickstand features which make it easy to direct at the sun and ensure you're getting the optimal amount of power potential.

Diving into the cost spectrum, the price for an MPPT solar charge controller can vary significantly based on its capabilities and the brand. Generally, they range between \$70 and \$600 .

Note that if it's a panel that requires the MC4 adapter, you must use the solar charging cable. Bluetti includes an MC4 to 7909 DC adapter with the EB55 and EB70S, but not the EB3A. The type of cable that is included is an MC4 to 7909 (click to view on Amazon) with a positive MC4 female connector and a negative MC4 male connector.

Best Battery - Hybrid: sonnen Hybrid 9.53 Hybrid battery models are great for seamlessly integrating a battery into either a new or existing solar panel system. Arguably one of the best solar battery storage models in this criteria is the sonnen Hybrid 9.53.

We break down the best solar panels for a variety of common priorities -- efficiency, warranty, manufacturer location, and more. Close Search Search Please enter a valid zip code. (888)-438-6910 Sign In ...

Trust me, I misplaced plenty of charging cables while testing the best portable solar panels and being able to pack away the charging cable with the solar panel itself is very helpful. The smaller sized portable solar panels are all easier to set up than the larger 200W and 400W models, but even within these, the Bluetti PV120 stood out as being easy to use.

The BigBlue SolarPowa 28 is our top choice for a portable solar charger because it balances portability and solar charging efficiency the best of any solar panel we tested. This model has impressive solar charging abilities ...
