

Villa Solar Power Generation Franchise

The generation of power is not considered a public utility operation; this is why power generation entities don't have to secure a franchise. As for the supply sector, except for distribution utilities and electric cooperatives with respect to their franchise areas, supplying electricity is not considered a public utility operation either so it doesn't require a franchise. ...

This work promotes power generation at the megawatt scale from solar photovoltaics (PV) systems deployed in untapped car parking areas, which are estimated to represent up to ~6.6% of the urban ...
