1. CTEK. Address - Rostugnsvagen 3 Vikmanshyttan, 776 70 Sweden; Year of Experience - 13 years (2009); Certificates - ISO, CE, UL, IEC; Company Introduction - Established in 2009, CTEK is recognized as one of Sweden's leading EV charging station manufacturers, with over 1million chargers sold yearly worldwide. Though it primarily started as a battery manufacturer, ...

Northvolt picks Sweden for electric car battery plant 10/19/2017 October 19, 2017. Northvolt has said it will build Europe's biggest electric car battery factory in its home country, Sweden.

UPDATED 6 OCTOBER 2024 (original publication 10 September 2024) - Northvolt, the Swedish battery manufacturer, is downsizing considerably. Seen as a promise for the future of electric mobility when it was founded in 2015, its CEO has now told staff "it will be turbulent times ahead", something the Swedish local newspaper Norran reported first.

Swedish battery manufacturer Northvolt announced plans to develop a fully integrated lithium-ion battery gigafactory in Quebec, Canada. Located just outside Montré#233;al, Northvolt Six will mimic the sustainability ...

Northvolt was founded in Sweden in 2016. We arrive to Canada with the benefit of experience from our activities in Europe, including our first gigafactory, a battery R& D campus and recycling facilities. ... a battery R& D campus and recycling facilities. Frequently asked questions. What is Northvolt? We are a European battery manufacturer ...

Scaling up Swedish battery companies. Scaling-up production was also the driver for the EU bank's backing for Northvolt's electric car battery. With an InnovFin-backed loan from the European Investment Bank, the company built a demonstration line of its concept in V&#228;ster&#229;s, not far from Stockholm. That factory started producing the new ...

Battery Tech Expo Sweden. Visit the biggest battery manufacturing and supply chain exhibition in Scandinavia. Skip to content. 15 & 16 October 2025. Eriksbergshallen, Maskingatan 11, 417 64 G&#246;teborg, Sweden ... battery tech expo. Meet manufacturers, suppliers, engineers, scientists and decision-makers across the Nordic battery value chain.

The Swedish battery manufacturer Northvolt will be one of the main customers for the factory in Torsboda. &quot;As part of our strategy to create the world's greenest battery, we're inviting subcontractors to produce materials and components on fossil-free electricity grids and in line with Europe's high environmental standards.

Beyond lithium: how a Swedish battery company wants to power Europe's green transition with salt.

# What are the Swedish battery manufacturers

Northvolt has developed a sodium-based battery, which doesn't require critical minerals and could help break ...

Swedish battery manufacturer Northvolt has announced the development of a sodium-ion battery aimed to be deployed in energy storage systems. According to the company, the technology has been tested for an energy density of more than 160 watt-hours per kilogram at its R& D campus in Västerås, Sweden. Battery withstands high temperatures

Swedish battery manufacturer Northvolt announced that on December 28th, it successfully produced the first lithium-ion battery cell to be designed, developed, and built completely in Europe by a ...

Stockholm, Sweden - Northvolt today announced a state-of-the-art sodium-ion battery, developed for the expansion of cost-efficient and sustainable energy storage systems worldwide. The cell has been validated for a best-in-class ...

In the rapidly evolving automotive industry, the demand for reliable and high-performance car batteries is ever-increasing. Sweden, known for its innovation and engineering excellence, has established itself as a hub for top-tier car battery manufacturers. As we venture into 2024, this article highlights the top 10 Swedish car battery manufacturers who are at the ...

Swedish battery maker Northvolt has developed its first sodium-ion battery in partnership with Uppsala University spinoff Altris. The cell has been validated for an energy density of more than 160 ...

Formed seven years ago, Northvolt is the first homegrown European battery company. In an interview with NPR, its CEO Peter Carlsson says the company was created to help make the continent self...

Northvolt has produced its first lithium-ion battery cell at its factory in Skelleftea, meeting its deadline to start production before the end of 2021.

Two innovative Swedish battery companies aim to supply clean energy in the home and for your car. When it's windy or sunny, wind and solar farms produce renewable energy. But the wind doesn't always blow, and ...

Deep in a dense, sub-Arctic pine forest in northern Sweden, a flat grey structure blends into both the snow and the overcast horizon. This improbable location is the birthplace of one of the most ...

As Northvolt, a Swedish battery manufacturer, has become a key partner of Volkswagen's electric vehicle (EV) business and is emerging as a key business to assist the European Union become self-reliant on batteries, South Korea's battery materials, parts, and equipment industry that is currently working with Northvolt is drawing interest. ...
