

# What material is the battery waterproof

The treble also has some added brightness to emphasize high-pitched instruments like hi-hats. Since it's a battery-powered speaker, you don't have to worry about plugging it into an outlet when you listen by the pool. That said, its 7.8-hour battery life isn't quite as impressive as what you get with the more premium JBL Boombox 3.

Designing waterproof enclosures for electronics is a blend of choosing the right materials, like ABS, and paying attention to details. Creating a waterproof enclosure involves more than just choosing the right materials--it's about mastering design elements like IP ratings, gaskets, and screws to ensure top-notch performance.
