While the Platinum line is high-end, Duracell doesn't offer cutting edge batteries with extras like mobile app integration, digital voltmeters, or luxury car horsepower ratings. Brands like Optima RedTop offer more elite (and expensive) options. So while Duracell is a respected brand, they aren't necessarily at the bleeding edge of car battery tech.

Picking the wrong one can lead to frequent replacements or even prevent your vehicle from running electronic accessories efficiently. In this guide, we'll walk you through some essential tips to help you choose the right car battery every time. Understanding Car Batteries: Not All Are Created Equal. Car batteries aren't one-size-fits-all.

Suspect your car battery is losing power (pay attention to warning signs). You can't recall the last time you replaced your car battery. You won't even have to leave your driveway to conduct a quick battery check. We'll show you how to test a car battery from home in four simple steps. 1. Perform a load test.

Selling old car batteries is another good option. You can find buyers online or at scrapyards. Be sure to check the going rate before selling so you don't get ripped off. If you can't recycle or sell your old car battery, then you need to dispose of it properly. The best way to do this is to take it to a hazardous waste facility.

To make things quicker at the car battery shop and find the perfect battery for your car on your own, you can go to the Exide Care website. Just visit the website and click on "find your battery." There, you can enter your
